

1/10th Gallon Metal Cartridge Retainer

The CR300 was developed with a new seal design, guaranteeing greater seal performance and durability by sealing directly onto the inside of the 'inserted' cartridge.

Fully compatible with 1/10th gallon plastic and metal caulking type cartridges (300/310ml). This high-grade anodized alloy retainer and cap ensure a safe and comfortable dispensing pressure of up to 100psi (6.9Bar).

With high performance and unique versatility, this retainer can be used as a pressurized fluid reservoir system in conjunction with a Fisnar dispense valve.

Hose and spare sealing ring included standard with CR300.

Features

- Supplied with a universal air-inlet for effortless system installation and integration
- Designed for long lasting use
- Equipped with a quick and easy screw on cap and can be attached directly to a Fisnar air-powered dispenser
- An optimized tube design reducing cartridge expansion while decreasing the risk of air ingress into the fluid
- Works efficiently with 1/10th gallon cartridge adapter nuts to convert the male thread on a standard caulking type cartridge to a conventional female 1/4" NPT thread

**560549U stand sold separately.*

Item Number	Description
CR300	Cartridge Retainer Assembly (Retainer, Cap, Seals, and Hose)
CR300-SEAL	Retainer Cap Sealing Ring
560549U	Cartridge Retainer Stand
562146	Quick Connect Hose (6ft)

Cartridge Adapter Nuts

Used for converting the male thread on a 310ml (1/10th gallon) cartridge to a 1/4" NPT female thread. 1/4" NPT nozzles, tip adapters, or fittings can be connected to allow material dispensing directly from the cartridge.

Item Number	Description
561129-SS	316 Stainless Steel
561129	White Acetal
