

Large Bore Stainless Steel 1/4" NPT Threaded Dispense Tips (Long Length)

Stainless steel 1/4" NPT threaded tips provide a highly reliable and dependable method of dispensing a wide variety of materials.

All tips within the range are designed to fit standard 1/4" NPT threaded connections.

Available in various lengths and gauge sizes, these large bore dispense tips provide increased fluid flow rates or deposit sizes for a wide variety of dispense applications.

The long length tube design allows for fluids to be easily dispensed into hard to reach areas which conventional dispense tips cannot reach.

Features

- Nickel Plated Hub
- Stainless Steel 304 Tube
- 1/4" NPT threaded connection
- Gauge size marked on hub for easy identification

Benefits

- Can dispense into obscure areas with ease
- Larger gauge size provides a higher flow rate
- Increased chemical compatibility over plastic hub dispense tips
- An efficient way of improving productivity without compromising on dispensing quality

Specifications
