TUSKBOND

/// HGL100

Mist/Pebble Spray Adhesive

Tuskbond HGL100 is the choice when bonding high gloss decorative laminates, specifically designed to give a pebble spray pattern. This is critical when bonding high gloss laminates to a variety of substrates including plywood, chipboard and MDF.

Tuskbond HGL100 provides instant grab and excellent high heat resistance, whilst achieving excellent bond strength.

Features:

- Mist/Pebble - Eliminating Telegraphing
- Strong Initial Grab
- Excellent Bond Strength
- High Heat Resistance
- Formulated for use with High Gloss Laminate

Substrates:

- High Gloss Laminates, Laminates, Veneers

Certificates:

- SAFT Heat Tested 100°C

Also available
in 500ml aerosol

TUSKBOND /// XPRO

The Next Generation of Contact Adhesive

Also available in
500ml aerosol

Tuskbond XPRO uses the latest solvent technology for minimal toxicity, meaning low hazard to human health. Possessing the best qualities of Tuskbond ONE, XPRO provides incredible grab, high bond strength and excellent heat resistance. It is easy to apply and combines a long open time with a very fast drying time. XPRO is a high performance product suitable for bonding veneers, HPL and almost all decorative laminates to MDF, chipboard and many other substrates. Its pressure sensitive properties make it ideal for a wide variety of substrates.

Features:

- Excellent Grab
- Innovative Solvent Technology
- Excellent Bond Strength
- Long Open Time
- Fast Drying

Substrates:

- Plywood, Veneers, MDF, Chipboard, Leather, Laminates, Plastics

Certificates:

- SAFT Heat Tested 100°C

TUSKBOND /// ONE

Multipurpose Sprayable Contact Adhesive

Also available in
500ml aerosol

Tuskbond ONE is a low odour, fast drying contact adhesive made in the UK for 15 years. Suitable for bonding a wide variety of products, Tuskbond ONE provides good temperature resistance, a long open time with a Class 0 fire rating. ONE's incredible grab and high bond strength reduce the need for mechanical fixings when manufacturing thicker worktops. Tuskbond ONE is a high performance product suitable for bonding veneers, HPL and almost all decorative laminates to MDF, chipboard and many other substrates. Its pressure sensitive properties make it ideal for a wide variety of substrates.

Features:

- Building Regulations: Class 0
- Excellent Grab
- Exceptional Bond Strength
- Long Open Time
- Versatile

Substrates:

- Veneers, HPL, Decorative Laminate, MDF, Chipboard, Plywood, Leather, Laminates, Plastics

Certificates:

- Tested to BS476 Part 6- Pass/ Part 7- Class 1
- Building Regulations: Class 0
- Wheelmark Accredited
- SAFT Heat Tested 100°C

TUSKBOND

/// NC501

Premium
Non-Chlorinated
Contact Adhesive

Also available in
500ml aerosol

Tuskbond NC501 is a premium non-chlorinated contact adhesive with extremely high solids content, greatly reducing the risk of low coat weight. NC501 provides a superior bond, excellent grab and a long open time. NC501 is versatile and will bond a wide variety of substrates.

Features:

- Non Chlorinated System
- Exceptional Grab
- High Solids
- Excellent Bond Strength
- Long Open Time
- Versatile

Substrates:

- Plywood, Leather, Laminates, Plastics

Certificates:

- Wheelmark Accredited
- SAFT Heat Tested 100°C

TUSKBOND

/// FD170

Fast Drying
Adhesive

Also available in
500ml aerosol

Tuskbond FD170 adhesive is a high solids, extremely tacky spray adhesive free from all chlorinated solvents. The fast drying adhesive is developed for bonding various substrates.

Features:

- Non Chlorinated
- Extremely Tacky
- High Solids Formulation
- Fast Drying
- Long Open Time

Substrates:

- Corian, Solid Surface, MDF

Certificates:

- SAFT Heat Tested 70°C

TUSKBOND

III G500

Premium High Solids Contact Adhesive

Also available in
500ml aerosol

Tuskbond G500 is our premium sprayable contact adhesive with extremely high solids content. It provides superior bond strength with excellent grab and heat resistance. G500 is suitable for bonding almost all decorative face laminates to a variety of other substrates including chipboard, plywood and MDF. G500 is well suited for bonding curved structures.

Features:

- Extremely High Solids
- Excellent Grab
- Superior Bond Strength
- Long Open Time
- Fast Drying

Substrates:

- Flexible Ply, Chipboard, MDF, Wood
- Laminates, Multiple Wood Build Ups, Metals

Certificates:

- Tested to BS476 Part 6- Pass/ Part 7- Class 1
- Building Regulations: Class 0
- Wheelmark Accredited
- SAFT Heat Tested 105°C
